

BITS2BYTES 2018

TO INFINITY & BEYOND 22-23 FEB

Designophy

Designophy is the front-end web design event of Bits 2 Bytes 2018.

Rules & Regulations:

- A website (front-end) is to be designed using HTML, CSS, JavaScript and jQuery.
- A list of topics will be given from which you can select any one.
- A text editor will be provided.
- Duration: 3 hours.
- No frameworks will be allowed.
- There will be a preliminary round of MCQ based questions on HTML CSS JavaScript to decide the contestants that move to the final round (website design).
- Only resources provided by coordinators will be allowed, no outside resources will be entertained.
- There would be extra points for responsiveness (cross platform).
